

BroadScan™ Solutions Overview

Security Priority One for SMB

Spyware looks set to take over the top spot from Spam as the biggest threat to business productivity and security.

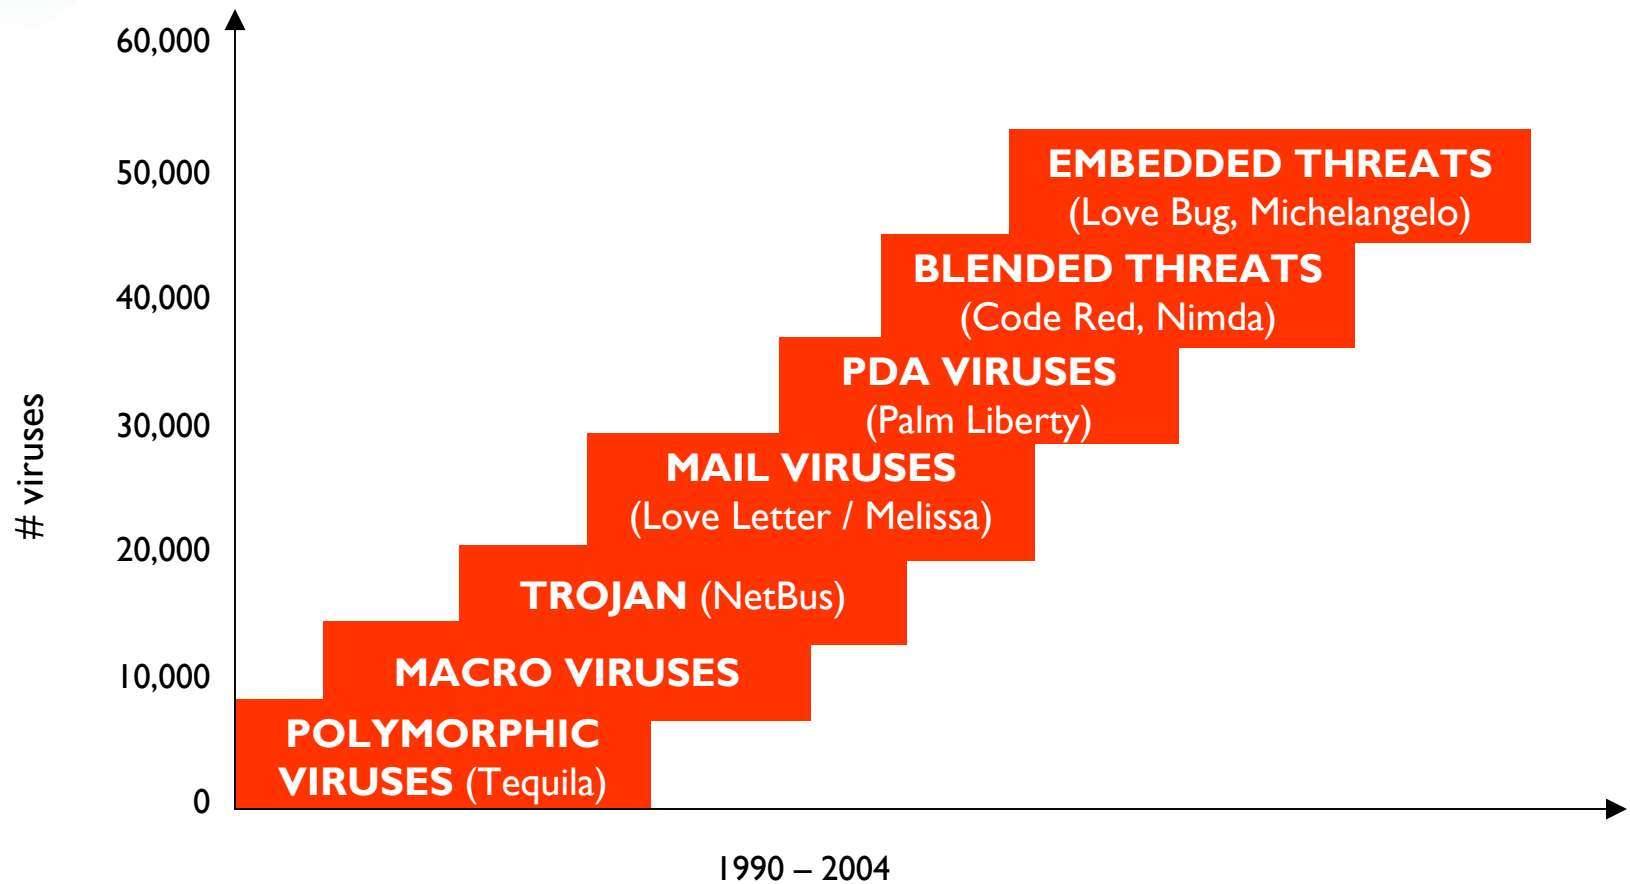

Dave Mitchell, SCMagazine, May 12,2005

49% of SMB respondents said the security of their company's computer system been threatened in the past year

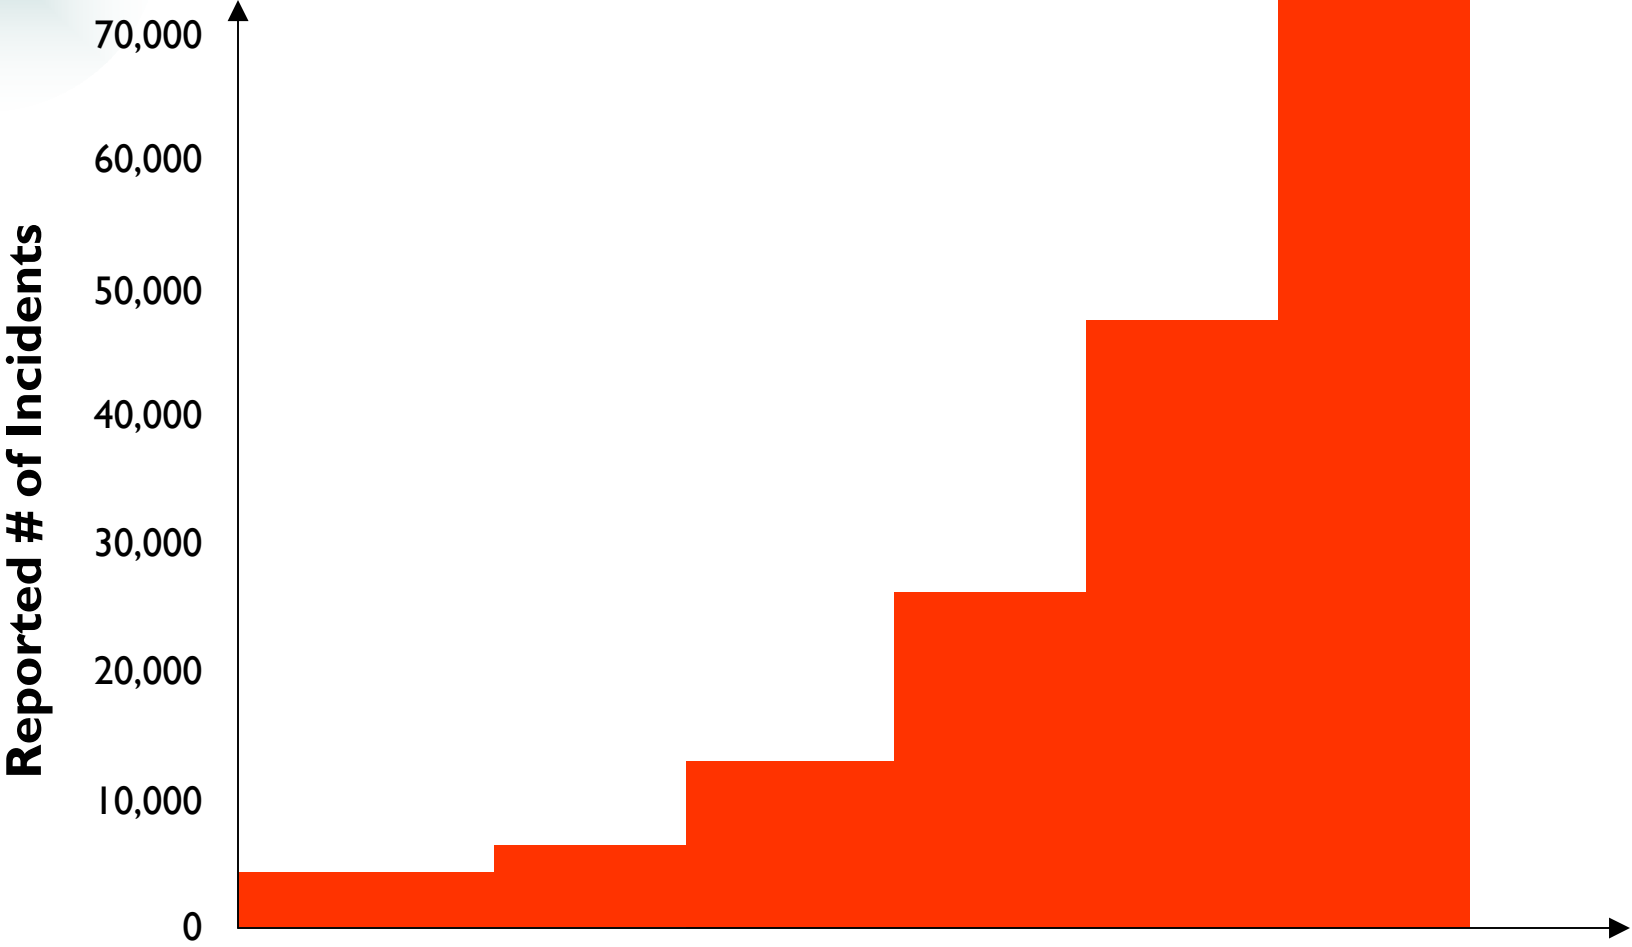

Penn, Scheon & Berland Associates, March 2005

- **Threats are becoming increasing, more complex and expensive**
- **Increased dependence on “e-business” means more exposure**
- **Wireless and mobility making network perimeters disappear**
- **Need protection against Spam, Viruses, Trojans, and Spyware**
- **SMBs have no in-house security expertise**

World of Viruses

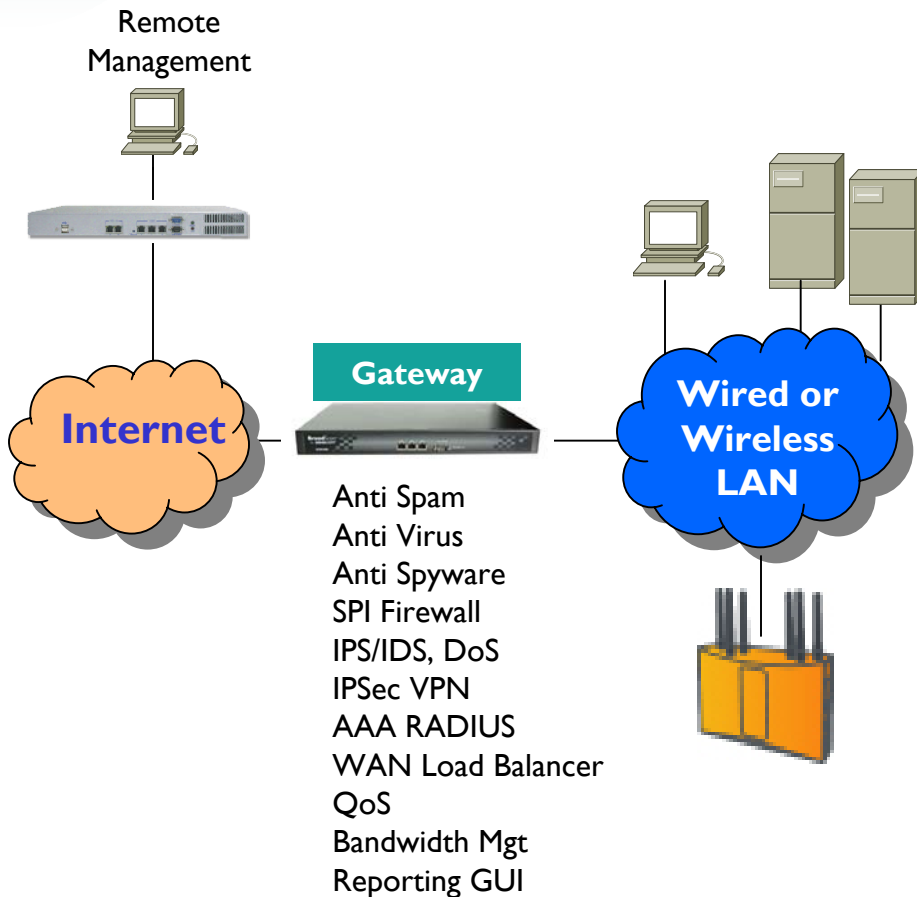

Increasing Attacks

1990 to 2004

Based on CERT Co-ordination Centre, Carnegie Mellon Software Engineering Institute

Best Practices Call For

- **Make Internet security priority I**
- **Meet Threats Complexity with new approach**
- **Minimize significance of the dangers**
- **Adopt new strategic direction**

Targeting Security

All-in-one Security Appliance

True Security

Sound Architectural Approach

Need for Layered Security

Redefining UTM Business Model

*Redefining the business model
for network security.*

- *Enterprise-class Spam, Virus and Spyware filtering.*
- *Intrusion detection, prevention and alerting.*
- *Content filtering, VPN, QoS and policy control.*
- *Radius authentication and WAN load balancing.*

*Introducing the **World's First** all-in-one
security appliance with **no recurring
subscription fees.***

BroadScan™

Purpose-built for SMB
and distributed
Enterprise by

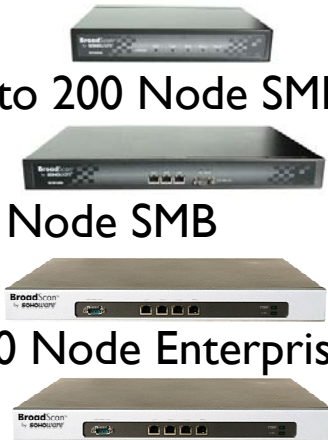

SOHware®
Your partner for SMB networking

BroadScan™ Family

- **Launch of an All-in-One Security Appliance family called**

- **BroadScan™**

- SCN200 targets 25 node single office
- SCN1000 targets up to 200 Node SMB
- SCL2000 targets 500 Node SMB
- SCL3000 targets 1000 Node Enterprise

- **Key Benefits**

- *High performance*
- *Ease of use and affordability*
- *Disruptive pricing model; Free updates*

- No more annual subscriptions
- Built-in Clam and SpamAssassin scanning engines
- Heuristic Bayesian Spam filtering
- Firewall and IPSec VPN
- IDS/IPS
- Content filtering
- RADIUS Authentication
- WAN load balancing
- SIP gateway Support for VoIP

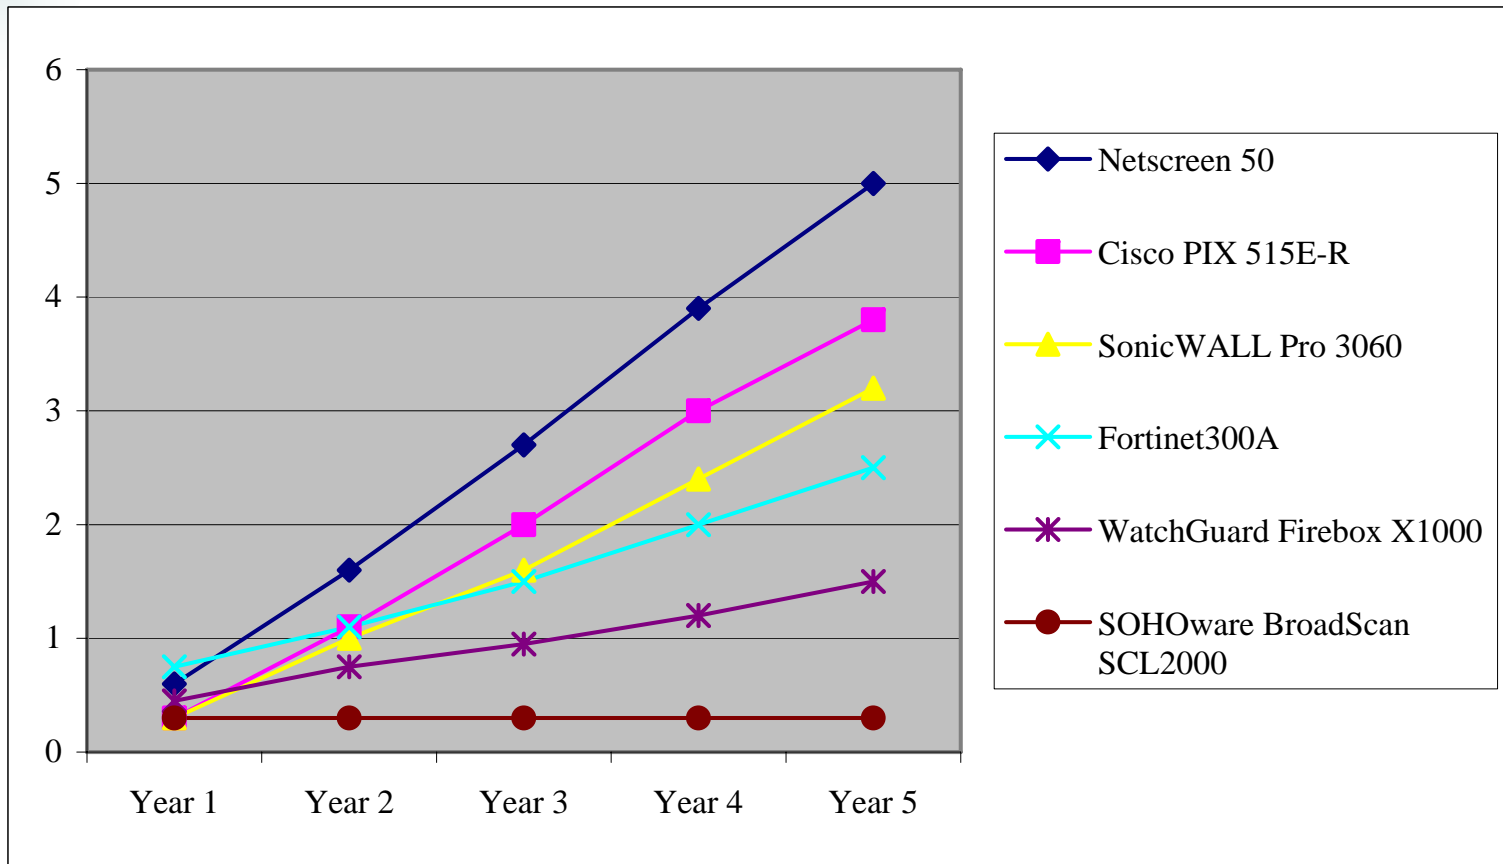

BroadScan™ Appliance Options

Performance	SCN200	SCN1000	SCL2000	SCL3000
10/100 Mbps (Throughput)	79.62 Mbps	100 Mbps	100 Mbps	100 Mbps
3DES VPN (Throughput)	15 Mbps	20 Mbps	45 Mbps	80 Mbps
Capacity (Email per day)	90,000	300,000	620,000	2,200,000
IDP signature database	716	2,918	2,918	2,918
Internal hard drive		40GB	40GB	80GB
Features				
Business Size (number of nodes)	25	200	500	1000
Stateful Firewall	Y	Y	Y	Y
VPN Tunneling (IPSec/IKE / PPTP)	Y	Y	Y	Y
QoS	Y	Y	Y	Y
Anti Spam (email inbound/outbound)	Y	Y	Y	Y
Anti Virus (email inbound/outbound)	Y	Y	Y	Y
Anti Spyware	Y	Y	Y	Y
Intrusion Detection and Prevention (IDP)	Y	Y	Y	Y
Content Filtering	Y	Y	Y	Y
Anti Virus (HTTP/FTP)		Y	Y	Y
SSL VPN		Y	Y	Y
RADIUS Support		Y	Y	Y
Load Balancing (multiple WAN ports)			Y	Y
High Availability			Y	Y
VPN Trunking				Y
GigE Interface (10/100/1000 ports)				Y

Total Life Cycle Cost Comparison

BroadScan™ Advantage

- **All-in-one comprehensive appliance with better architectural fit**
 - **single-source security updates for Spam, Viruses, Trojans, and Spyware including intrusion detection and protection, and protection against denial of service**
- **No restriction on number of users or nodes**
- **Free updates for 5 years**
- **Additional unique features such as RADIUS, VoIP SIP support, WAN load balancing, and IPSec VPN termination**
- **Easy to set up, deploy and review built-in usage reports**
- **Lowest life cycle cost**
- **Ideal for SMBs and distributed enterprise served by VARs**

Conclusion

- **BroadScan™ addresses the top business Internet Security concerns**
- **BroadScan™ meets the threats economically with no annoying recurring subscriptions**
- **BroadScan™ offers comprehensive protection and unique advanced features in an easy to deploy solution**
- **BroadScan™ is ideal for SMBs and distributed enterprises served by VARs**
